

We are looking for a UI/UX Engineer

OctopusBI empowers businesses with invaluable insights from data to transform future outcomes and positively impact learners' academic and personal success.

For More Info Visit : www.octopusbi.com

Job Role

- Develop modular, scalable, responsive and cross-platform UI solutions using HTML5, CSS3, JavaScript.
- Work closely with members of the Product and Design teams to translate concepts into prototypes and assist engineering teams with the final implementation.
- Collaborate with back-end web developers and programmers to improve usability.

Requirements

- Expert level knowledge of HTML5, CSS3, JavaScript.
- Experience in working with CSS preprocessors. (Sass, Less)
- Solid knowledge of responsive layout development with cross browser support.
- Develop UI mockups and prototypes that clearly illustrate how sites function and look like.
- Conduct layout adjustments based on user feedback.
- Adhere to style standards on fonts, colors and images.
- Some experience with back-end technologies will be beneficial.

An attractive salary package awaits the right candidate.
