

We are looking for a

# Lead QA Engineer

OctopusBI is an Australian based Education Data Analytics company, consisting of a passionate group of talented professionals who are working in our local office situated in Colombo, Sri Lanka. Currently, we are looking for a 'Lead QA Engineer' to join our team in Sri Lanka.

The ideal candidate should be proactive, highly organized, have exceptional communication skills, and a passion for agile and getting the job done with a level of excellence.

If you are up for the challenge, please send us your CV.

## Responsibilities

- Define the quality engineering roadmap with engineering best practices.
- Closely work with the Development and project teams to deliver a bug free application.
- Develop effective, reusable and maintainable test deliverables.
- Navigate through technical/high level design documents to extract system requirements and define test coverage.
- Identify and report requirement issues and get corrected.
- Ensure maximum test coverage of the application.
- Defect reporting and participating in triage meetings.
- Actively work on performance testing, smoke testing, system testing, regression testing, endurance testing, defect re-testing and sanity testing and test automation.
- Keep test cases up to date with changing requirements and additions.
- Execute automated tests on demand will be an advantage.
- ISTQB qualifications would be an added advantage.
- Continuously providing daily updates and maintaining the transparency of the progress.

## Requirement

- BSc./ MSc. in computer science, engineering or a related field.
- Proven experience of minimum 4+ years in Software Quality Assurance.
- Applied knowledge of working with highly available, distributed systems, and services in a cloud environment.
- Experience in Selenium WebDriver using Java will be an added advantage.
- Database experience (RDBMS and NoSQL).
- Experience in test automation and automation frameworks.
- Experience with all phases of software testing including test planning, performance testing, functional testing, regression testing.
- Knowledge in Postgres DB, Mysql/MariaDB, MSSql or any other database administration.
- Experience working with Agile/SCRUM Methodology.
- Excellent team management skills.

OctopusBI empowers business with invaluable insights from data to transform future outcomes and positively impact learners' academic and personal success.
