

We are hiring a **Manager – Information Security**

Here at Octopus BI we continually strive to put a tentacle into every organisational data silo and help our customers make real time, data informed decisions. It's that critical time for us between Seed and Series A and an amazing opportunity for someone with significant product capability to help take us to the next level.

Key Responsibilities

- Perform Vulnerability Assessments for products developed at OctopusBI. Ensure the products are developed according to the security best practices and compliance requirements.
- Be a subject matter expert in Web Application security and solutions
- Manage internal and external vulnerability programs and work closely with DevOps and software development team.
- Maintain compliance implementations including ISO27001, SOC2 and GDPR while playing the role of an Information security Officer for OctopusBI.
- You have a penchant for product best practices across both discovery and delivery (CI/CD) and are an advocate of modern ways of working.
- Maintenance of ISO27001 Certification.
- Conduct hands-on training sessions to Cyber Security team and for other staff members.
- Conduct information security awareness sessions.
- Work closely with the Internal IT Team for new implementations and security product evaluations.
- Incident Response and remediation.
- Lead the Cyber Security Team and manage external projects.
- Work/Assist and participate in cross functional teams such as DevOps , QA and IT.

Qualifications and Experience

- Degree / Postgraduate qualification in Cyber Security or equivalent.
- 4+ Experience in Cyber Security Domain
- 1-2 Years of Hands-on experience in Vulnerability Assessments & Penetration Testing.
- Experience reviewing application code for vulnerabilities and provide recommendations.
- Relevant industry certifications (C|HFI, C|EH, eCPPT, CISSP, OSCP, ISO Lead Auditor)
- Experience in Cloud Computing and Cloud Security (AWS / GCP)
- Experience using vulnerability management tools
- Experience using and managing EDR solutions (CrowdStrike , Cylance, TrendMicro)
- Effective Communication and language skills.
